

Tea Hand Burn Case Study

Subject: Female, approximately 34 years old

Burn Size and Location: Lower portion of thumb on right hand

Product Used: Silver Biotics Armor Gel (24 ppm hydrogel wound dressing)

Wound Management Protocol: The subject burned herself with hot tea. A doctor applied Silver Biotics Armor Gel topically to the burn. 10 minutes after applying the gel, the subject reported that the pain had subsided, and the doctor noted that the redness and inflammation were significantly reduced.
